

Summer Solstice 2018

June 21st marked the summer solstice this year, and the weather in St. John's invited us to celebrate fully! Over thirty people gathered on a glorious Thursday evening at Virginia Water Retreat House for the seasonal celebration. The theme this year was "Senses" and we used our senses to discover presence and oneness with the natural world. With poetry, prayer and silent mediation we recognized the day of longest light, and welcomed the season of Summer. We enter into Summer renewed by our ritual experience and full of gratitude for the community of friends that gathered.
